

Data protection

Fairness and loyalty is the foundation of our work. As a team we respect each other and it is our aim to become our customers most reliable partner. We treat any kind of personal data in the same manner.

Date collection and processing

We do not collect any personal data on our web site.

You can access the information on our web page with leaving any personal data about yourself. If you contact us, we store the relevant date only for this communication.

Use and transfer of personal data

We only handover personal data to third parties if there is a personal agreement or a legal obligation according to german law. We treat personal data in compliance with the german data protection law (Bundesdatenschutzgesetz, BDSG).

Provision of information

Upon request we provide clear and precise feedback about your personal data stored in our systems.

Data security

We protect personal data technically and by organisational activities. We prevent unauthorised access, damage and loss.

Technical

On our web page we present our market leading machines and services. We do not load any data like cookies onto your PC.

We are happy to provide detailed and clear answers to any question related to the collection, processing, transport and hand over of personal data. Please contact us in this case.
